WASHOUT WHEAT

Named for a locally-loved section of Folly Beach, Washout Wheat is an excellent hot weather beer, and our first wheat beer. We checked the overdone spice additions of coriander and orange peel at the door, and instead let the wheat and the yeast work their respective magic. The notes of banana and clove come entirely from that magic, not from any additional ingredients. The end result is a no frills wheat experience, one that quenches your thirst with no extra hang-ups.
